This Disclosure Document has been prepared to provide general information about the Issuer to potential investors to whom it is addressed and who are willing and eligible to subscribe to the Debentures. This Disclosure Document does not purport to contain all the information that any potential investor may require. Neither this Disclosure Document nor any other information supplied in connection with the Debentures is intended to provide the basis of any credit or other evaluation and any recipient of this Disclosure Document should not consider such receipt a recommendation to purchase any Debentures. Each investor contemplating purchasing any Debentures should make its own independent investigation of the financial condition and affairs of the Issuer, and its own appraisal of the creditworthiness of the Issuer. Each recipient of this Disclosure Document acknowledges that such person has not relied on the Issuer or any of its affiliates, shareholders, directors, employees, agents or advisors in connection with its investigation of the accuracy of such information or its investment decision and such person has relied solely on its own examination of the creditworthiness of the Issuer and the merits and risks involved in investing in the Debentures. Potential investors should consult their own financial, legal, tax and other professional advisors as to the risks and investment considerations arising from an investment in the Debentures and should possess the appropriate resources to analyze such investment and the suitability of

such investment to such investor's particular circumstances.

No person has been authorized to give any information or to make any representation not contained or incorporated by reference in this Disclosure Document or in any material made available by the Issuer to any potential investor pursuant hereto and, if given or made, such information or representation must not be relied upon as having been authorized by the Issuer.

This Disclosure Document and the contents hereof are restricted for only the intended recipient(s) who have been addressed directly and specifically through a communication by the Issuer and only such recipients are eligible to apply for the Debentures. All investors are required to comply with the relevant regulations/guidelines applicable to them for investing in this Issue. The contents of this Disclosure Document are intended to be used only by those investors to whom it is distributed. It is not intended for distribution to any other person and should not be reproduced by the recipient.

No invitation is being made to any persons other than those to whom application forms along with this Disclosure Document being issued have been sent by or on behalf of the Issuer. Any application by a person to whom the Disclosure Document has not been sent by or on behalf of the Issuer shall be rejected without assigning any reason.

Each person receiving this Disclosure Document acknowledges that:

Such person has been afforded an opportunity to request and to review and has received all additional information considered by it to be necessary to verify the accuracy of or to supplement the information herein. Each such person (i) is a knowledgeable and sophisticated investor; (ii) have the expertise in assessing the credit, market and all the other risks involved in purchasing the Debentures; (iii) has done its own independent assessment and analysis of the Issue; (iv) understands that, by purchase or holding of the Debentures, it is assuming and is capable of bearing the risk of loss that may occur with respect to Debentures, including the possibility that it may lose all or a substantial portion of investment.

The Issuer does not undertake to update the Disclosure Document to reflect subsequent events after the date of the Disclosure Document.

Neither the delivery of this Disclosure Document nor any sale of Debentures made hereunder shall, under any circumstances, constitute a representation or create any implication that there has been no change in the affairs of the Issuer since the date hereof.

This Disclosure Document does not constitute, nor may it be used for or in connection with, an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorized or to any person to whom it is unlawful to make such an offer or solicitation. No action is being taken to permit an offering of the Debentures or the distribution of this Disclosure Document in any jurisdiction where such action is required. The distribution of this Disclosure Document and the offering and sale of the Debentures may be restricted by law in certain jurisdictions. Persons into whose possession this Disclosure Document comes are required to inform themselves about and to observe any such restrictions. The Disclosure Document is made available to investors in the Issue on the strict understanding that the contents hereof are strictly confidential.

It is the responsibility of investors to ensure that any transfer of the Debentures is in accordance with this Disclosure Document and the applicable laws, and ensure that the same does not constitute an offer to the public.

The information and data contained herein is submitted to each of the recipient of this Disclosure Document on a strictly private and confidential basis. By accepting a copy of this Disclosure Document, each recipient agrees that neither it nor any of its employees or advisors will use the information contained herein for any purpose other than evaluating the subscription to the Issue or will divulge to any other party any such information. This Disclosure Document must not be photocopied, reproduced, extracted or distributed in full or in part to any person other than the recipient without the prior written consent of the Issuer.

The Issuer accepts no responsibility for statements made other than in this document or any other material expressly stated to be issued by or at the instance of the Issuer in connection with the Issue of this series of debentures and that anyone placing reliance on any other source of information would be doing so at their/its own risk.

FORWARD LOOKING STATEMENTS

All statements in this Disclosure Document that are not statements of historical fact constitute “forward looking statements”. All statements regarding the Issuer’s expected financial condition and results of operations, business, plans and prospects are forward looking statements. These forward looking statements and any other projections contained in this Disclosure Document (whether made by the Issuer or any third party) are predictions and involve known and unknown risks, uncertainties and other factors that may cause the Issuer’s actual results, performance and achievements to be materially different from any future results, performance or achievements expressed or implied by such forward looking statements or other projections. The forward looking statements, if any, contained in this Disclosure Document are based on the beliefs of the management of the Issuer, as well as the assumptions made by and information available to management as at the date of this Disclosure Document. There can be no assurance that the expectations will prove to be correct. The Issuer expressly disclaims any obligation or undertaking to release any updated information or revisions to any forward looking statements contained herein to reflect any changes in the expectations or assumptions with regard thereto or any change in the events, conditions or circumstances on which such statements are based. Given these uncertainties, recipients are cautioned not to place undue reliance on such forward looking statements. All subsequent written and oral forward looking statements attributable to the Issuer are expressly qualified in their entirety by reference to these cautionary statements.

TERMS AND CONDITIONS RELATING TO THE REFERENCE INDEX

“Disruption Event” means any Change in Law, Market Disruption Event or Trading Disruption or Reference Index Disruption;

“Change in Law” means that, on or after the Issue Date (a) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (b) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Company determines in its sole and absolute discretion that (i) it has become illegal for it or any of its affiliates or agents acting on its behalf to hold, acquire or dispose of any Component Asset, or (ii) the Company will incur a materially increased cost in performing its obligations in relation to the Debentures (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on the tax position of the Company and/or any of its affiliates or agents acting on its behalf);

“Component Asset” means any security comprised within the Reference Index from time to time;

“Disrupted Day” means, any Scheduled Trading Day on which a relevant Exchange fails to open for trading during its regular trading session or on which a Market Disruption Event has occurred;

“Early Closure” means, the closure on an Exchange Business Day of the Exchange prior to its Scheduled Closing Time unless such earlier closing time is announced by such Exchange at least one hour prior to the earlier of (i) the actual closing time for the regular trading session on such Exchange on such Exchange Business Day and (ii) the submission deadline for orders to be entered into the Exchange system for execution at the Valuation Time on such Exchange Business Day;

“Exchange” means the BSE, any successor to such exchange or any substitute exchange or quotation system to which trading in such shares underlying such Reference Index has temporarily relocated (provided that the Valuation Agent has determined that there is comparable liquidity relative to such shares underlying such Reference Index on such temporary substitute exchange or quotation system as on the original Exchange);

“Exchange Business Day” means, any Scheduled Trading Day on which the Exchange is open for trading during its regular trading sessions, notwithstanding such Exchange closing prior to its Scheduled Closing Time;

“Exchange Disruption” means, any event (other than an Early Closure) that (i) disrupts or impairs the ability of market participants in general to obtain market values for, the Reference Index on the Exchange, or (ii) to effect transactions in, or obtain market values for, futures or options contracts relating to such Reference Index on any relevant Exchange;

“Market Disruption Event” means, the occurrence or existence of (i) a Trading Disruption, (ii) an Exchange Disruption, which in either case the Valuation Agent determines is material, at any time during the one hour period that ends at the relevant Valuation Time, or (iii) an Early Closure. For the purpose of determining whether a Market Disruption Event exists in relation to the Reference Index at any time, if a Market Disruption Event occurs in respect of a security included in the Reference Index at any time, then the relevant percentage contribution of that security to the level of the Reference Index shall be based on a comparison of (a) the portion of the level of the Reference Index attributable to that security and (b) the overall level of the Reference Index, in each case immediately before the occurrence of such Market Disruption Event. The Valuation Agent shall, as soon as reasonably practicable, notify the Registered Debenture Holder of the existence or occurrence of a Disrupted Day on any day that but for the occurrence or existence of a Disrupted Day would have been an Observation Date;

“Observation Date” shall mean each Date as specified in Annexure A below, provided that, if any such date is not a scheduled Reference Index futures expiry date, then the Reference Index futures expiry date as notified by the Exchange for that month will be considered as the Observation Date;

“Observation Time” means any time within normal business hours as may be determined by the Valuation Agent;

“Official Closing Level” means (subject to what is provided below in reference to Adjustments to the Reference Index), the official closing level of the Reference Index of a given day as determined by the Valuation Agent;

“Scheduled Closing Time” means, in respect of the Exchange and a Scheduled Trading Day, the scheduled weekday closing time of such Exchange on such Scheduled Trading Day, without regard to after hours or any other trading outside of the regular trading session hours;

“Scheduled Trading Day” means any weekday on which the Exchange is scheduled to be open for trading for their respective regular trading sessions (other than special trading sessions);

“Trading Disruption” means any suspension of or limitation imposed on trading by the relevant Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the Exchange or otherwise (i) on the Exchange relating to the relevant share that comprise 20.00% or more level of the Reference Index or (ii) in futures or options contracts relating to the Reference Index on any relevant Exchange;

“Valuation Time” means the Scheduled Closing Time on the Exchange. If the Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time.

Adjustments to the Reference Index

If the Reference Index:

- i. is not calculated and published by the Sponsor of the Reference Index but is calculated and published by a successor to the Sponsor acceptable to the Valuation Agent; or is replaced by a successor index using, in the determination of the Sponsor, the same or a substantially similar formula for and method of calculating the Reference Index, then in each case that index (the **“Successor Reference Index”**) will be deemed to be the Reference Index.

If:

(a) on or prior to any Observation Date or any other relevant date, the Sponsor announces that it will make a material change in the formula for or the method of calculating the Reference Index or in any other way materially modifies the Reference Index (other than a modification prescribed in that formula or method to maintain the Reference Index in the event of changes in constituent stock and capitalisation and other routine events) (a **“Reference Index Modification”**); or

(b) on an Observation Date, the Sponsor fails to calculate and announce the Reference Index (a **“Reference Index Disruption”**) and, together with a Reference Index Modification and a Reference Index Cancellation each a **“Reference Index Adjustment Event”**),

then the Valuation Agent shall, in its sole and absolute discretion, determine if such Reference Index Adjustment Event has a material effect on the Debentures and, if so, the Valuation Agent will calculate the Official Closing Level using, in lieu of a published level for the Reference Index, the level for the Reference Index as at the Valuation Time on the relevant Observation Date as determined by the Valuation Agent in accordance with the formula for and method of calculating the Reference Index last in effect prior to that change, failure or cancellation but using only those securities that comprised the Reference Index immediately prior to that Reference Index Adjustment Event.

If the level of the Reference Index in relation to an Observation Date used or to be used by the Valuation Agent to determine the Final Redemption Amount is subsequently corrected and such correction is published by the Sponsor no later than the second Business Day prior to the Final Maturity Date, then the level of the Reference Index for that Observation Date shall be the level of the Reference Index as so corrected.

If, on or prior to any Observation Date, the Sponsor permanently cancels the Reference Index and no Successor Reference Index exists (a **“Reference Index Cancellation”**), this shall constitute an Early Redemption Event for Extraordinary Reason as referred to in the Terms and Conditions above and accordingly consequent early redemption of the Debentures by the Company if so elected for by the Company.

- (a) If a Disruption Event occurs, the Company in its sole and absolute discretion may require the

Valuation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any terms of the Debentures to account for the Disruption Event and determine the effective date of that adjustment;

- (b) Upon the occurrence of a Disruption Event, the Company shall give notice as soon as practicable to the Registered Debenture Holders stating the occurrence of the Disruption Event, giving details thereof and the action proposed to be taken in relation thereto, provided that any failure to give, or non-receipt of, such notice will not affect the validity of the Disruption Event.

RISK FACTORS:

General Risk factors related to the Reference Index of NIFTY 50:

- Although the principal value on the NCDs is protected on maturity, the investment return on the NCDs is linked to the performance of the underlying Nifty 50 Index.
- An investor in the NCD will not be entitled to receiving any interest payments and/or dividends and/or other distributions in the constituent stocks of the Nifty 50 index during the term of the NCD.
- Even though the investment return on the NCDs is linked to the Nifty 50 index the return on the NCDs may not reflect the return an investor may realize if the investor was to actually own each of the constituent stocks comprising the Nifty 50 index. Further, the debenture holders will have no ownership rights on the constituent stocks of the Nifty 50 index.

Internal Risk Factors

- 1. Any increase in the levels of non-performing assets (“NPA”) on our loan portfolio, for any reason whatsoever, would adversely affect our business and results of operations.***

Consistent with the growth of our branch network and our product portfolio, we expect an increase in our loan assets. Should the overall credit quality of our loan portfolio deteriorate, the current level of our provisions may not be adequate to cover further increases in the amount of our NPAs. Moreover, there also can be no assurance that there will be no further deterioration in our provisioning coverage as a percentage of Gross NPAs or otherwise, or that the percentage of NPAs that we will be able to recover will be similar to our past experience of recoveries of NPAs. As of December 31, 2018, the gross value of NPAs on our books of accounts was 3.29% of our total loan book. While we believe that we have adequately provided for NPAs to cover known or expected losses which may arise in our asset portfolio, any increase in the level of final credit losses shall adversely affect our business and future financial performance.

- 2. We may be impacted by volatility in interest rates or adverse market scenario which could cause our Gross Spreads to decline and consequently affect our profitability.***

We are exposed to interest rate risks as a result of lending to customers at fixed/ floating interest rates and in amounts and for periods which may differ from our funding sources. While we seek to match our interest rate positions to minimise interest rate risk, we are unable to assure you that significant variation in interest rates or adverse market scenario will not have an effect on our results of operations. Moreover, volatility in interest rates is sensitive to factors which are beyond our control, including the monetary policies of the RBI, deregulation of the financial sector in India, domestic and international economic and political conditions, inflation and other such considerations. In a rising interest rate environment, if the yield on our interest-earning assets does not increase simultaneously with or to the same extent as our cost of funds, or, in a declining interest rate environment, if our cost of funds does not decline simultaneously or to the same extent as the yield on our interest -earning assets, our net interest income and net interest margin would be adversely impacted.

There can be no assurance that we will be able to adequately manage our interest rate risk in the future and any significant increase in interest rates would adversely affect our business and results of operations.

3. *We are subjected to supervision and regulation by the RBI as a systemically important NBFC, and changes in RBI's regulations governing us could adversely affect our business.*

Being an NBFC, the operations of the Company are subject to various regulations prescribed the RBI and other statutory authorities including regulations relating to foreign investment in India. Pursuant to the revised regulatory framework for NBFCs issued by RBI Master Direction NBFC-SI-ND Directions, 2016-RBI/DNBR/2016-17/45 Master Direction DNBR.PD.CC.No.086/03.10.001 dated September 01, 2016 (Updated as on May 31, 2018), the Company has been classified as a Systemically Important Non Deposit Accepting NBFC. Pursuant to the aforesaid circular, among other things, NBFCs will be required to consider a term loan inclusive of unpaid interest as non-performing asset if it is overdue for period of 3 months or more or on which interest amount remained overdue for period of 3 months or more and in respect of demand or call loan which remained overdue for period of 3 months or more from the date of demand or call or on which interest amount remained overdue for period of 3 months or more. Provisions for standard assets has 0.40 per cent by end of March 2018. The Company is required to maintain a CAR of 15% besides complying with other Prudential Norms, directions and the requirements under the revised regulatory framework. Compliance with many of the regulations applicable to the Company across jurisdictions including any restrictions on investments and other activities currently being carried out by the Company involve a number of risks, particularly in areas where applicable regulations may be subject to varying interpretations. If the interpretation of the regulators and authorities varies from our interpretation, we may be subject to penalties and the business of the Company could be adversely affected. Further, the RBI's may amend regulations/ guidelines applicable to NBFCs in future which may require us to restructure our activities, incur additional cost or could otherwise adversely affect our business and our financial performance.

While the RBI has not provided for any restriction on interest rates that can be charged by non -deposit taking NBFCs but there can be no assurance that the RBI and/or the Government will not implement regulations or policies, including policies or regulations or legal interpretations of existing regulations, relating to or affecting interest rates, taxation, inflation or exchange controls, or otherwise take action, that could have an adverse effect on non-deposit taking NBFCs. In addition, there can be no assurance that any changes in the laws and regulations relative to the Indian financial services industry will not adversely impact our business.

4. *Our ability to borrow from various banks may be restricted on account of guidelines issued by the RBI imposing restrictions on banks in relation to their exposure to NBFCs.*

The RBI in its notification (No. RBI/2006-07/205/DBOD.No. FSD.BC.46 / 24.01.028 /2006-07) dated December 12, 2006 has amended the regulatory framework governing banks to address concerns arising from divergent regulatory requirements for banks and NBFCs. This notification reduces the exposure (both lending and investment, including off balance sheet exposures) of a bank to NBFCs like us. Accordingly, banks' exposure limits on any NBFC are reduced from the 25% of the banks' capital funds to 10% of its capital funds. Furthermore, RBI has suggested that banks may consider fixing internal limits for their aggregate exposure to all NBFCs combined. This notification limits a bank's exposure to NBFCs which consequently restricts our ability to borrow from banks and thereby increasing the cost of our borrowing.

This notification has adversely affected our business and any similar notifications released by the RBI in the future, which has a similar impact on our business could affect our growth, margins and business operations.

5. Our ability to lend against security of shares may be restricted on account of recent guidelines issued by RBI, which may have a negative impact on our business and results of operation.

As per RBI Master Direction NBFC-SI-ND Directions, 2016- RBI/DNBR/2016-17/45 Master Direction DNBR.PD.CC.No.086/03.10.001 dated September 01, 2016 (Updated as on May 31, 2018) has restricted 'Loan against Shares' business undertaken by NBFCs. Some of the requirements of such circular are: a. LTV ratio should not exceed 50%, and shall be maintained at all times. Any shortfall in the maintenance of the 50% LTV occurring on account of movement in the share price shall be made within 7 working days, b. In case where lending is done for investment in capital market, only Group 1 securities can be accepted as collateral for loans of value more than Rs.5 lakh subject to review by RBI, and c. to report on-line to stock exchanges, information on the shares pledged in favor of NBFC, by borrowers for availing loans. At this point, we cannot assure you that this notification and its applicability to us will not have a material and adverse effect on our future financial conditions and results of operations.

6. Our business requires substantial capital, and any disruption in funding sources would have a material adverse effect on our liquidity and financial condition.

Our liquidity and ongoing profitability are, in large part, dependent upon our timely access to, and the costs associated with, raising capital. Our funding requirements historically have been met from a combination of borrowings such as term loans and working capital limits from banks and issuance of commercial paper, non-convertible debentures on private placement basis and equity on right issue basis. Thus, our business depends and will continue to depend on our ability to access diversified low-cost funding sources.

The RBI Master Direction NBFC-SI-ND Directions, 2016- RBI/DNBR/2016-17/45 Master Direction DNBR.PD.CC.No.086/03.10.001 dated September 01, 2016 (Updated as on May 31, 2018) issued certain guidelines to NBFCs with respect to raising of money through private placement by them in the form of non - convertible debentures. These guidelines include restrictions on the minimum subscription amount for a single investor of Rs. 20,000, prohibition on providing loan against the security of its own debentures, etc. This has resulted in limiting the Company's ability to raise fresh debentures on private placement basis. Such changes in laws of the country applicable to our company can disrupt funding sources which would have a material adverse effect on our liquidity and financial condition.

7. The financing industry is becoming increasingly competitive and our growth will depend on our ability to compete effectively.

The sector in which we operate is highly competitive and we face significant competition from banks and other NBFCs. Many of our competitors are larger institutions, which may have much larger customer and funding sources, larger branch networks and more capital than we do. Some of our competitors may be more flexible and better-positioned to take advantage of market opportunities. In particular, private banks in India and many of our competitors outside of India may have operational advantages in implementing new technologies and rationalizing branches. These competitive pressures affect the industry in which we operate as a whole, and our future success will depend in large part on our ability to respond in an effective and timely manner to these competitive pressures.

Unlike commercial banks, we do not have access to funding from savings and current deposits of customers. Instead, we are reliant on higher cost syndicated loans and debentures for our funding requirements, which may reduce our margins compared to competitors. Our ability to compete effectively with commercial banks will depend, to some extent, on our ability to raise low -cost sources of funding in the future. If we are unable to compete effectively with other participants in the loan against security/property industry, our business, future financial performance and the trading price of the NCDs may be adversely affected.

8. Contingent Liability

The Company's contingent liabilities could adversely affect its financial condition. As on December 31, 2018, the Company had contingent liabilities of Rs.5.18 Crore on account of financial & other guarantees and other contingent liabilities.

9. *We rely to some extent on Centrum Wealth Management (CWML) team and Centrum Broking Limited (CBL), for our clientele, distribution network, connect and marketing to HNI and other investors connected to CWML and CBL that we enjoy in the industry and our brand name and any factor affecting the business and reputation, performance and strength of distribution capability of Centrum Wealth Management team and CBL team may have a concurrent adverse effect on our business and results of operations.*

We source our clients inter alia from Centrum Wealth Management team and also significantly benefit from the goodwill that Centrum Wealth Management team enjoys in the market. We believe that this goodwill ensures a steady inflow of business. In the event Centrum Wealth Management team is unable to maintain the quality of its services or its goodwill deteriorates for any reason whatsoever, our business and results of operations may be adversely affected. We operate in a competitive environment, and we believe that our brand recognition is a significant competitive advantage to us. Any failure to retain our Company name may deprive us of the associated brand equity that we have developed which may have a material adverse effect on our business and operations.

10. *If we are unable to manage our rapid growth effectively, our business and financial results could be adversely affected.*

A principal component of our strategy is to continue to grow by expanding the size and geographical scope of our businesses. This growth strategy will place significant demands on our management, financial and other resources. It will require us to continuously develop and improve our operational, financial and internal controls. Continuous expansion increases the challenges involved in financial management, recruitment, training and retaining high quality human resources, preserving our culture, values and entrepreneurial environment, and developing and improving our internal administrative infrastructure. Failure to train our employees properly may result in an increase in employee attrition rates, require additional hiring, erode the quality of customer service, divert management resources, increase our exposure to high-risk credit and impose significant costs on us. If we grow our loan book too rapidly or fail to make proper assessments of credit risks associated with new borrowers, a higher percentage of our loans may become non-performing, which would have a negative impact on the quality of our assets and our financial condition. Any inability on our part to manage such growth could disrupt our business prospects, impact our financial condition and adversely affect our results of operations.

11. *Our growth will depend on our continued ability to access funds at competitive rates which are dependent on a number of factors including our ability to maintain our credit ratings.*

As we are a “systemically important non-deposit accepting” NBFC and do not have access to deposits, our liquidity and ongoing profitability are primarily dependent upon our timely access to, and the costs associated with raising capital. Our business is significantly dependent on funding from the debt capital markets and commercial borrowings. The demand for such funds is competitive and our ability to obtain funds at competitive rates will depend on various factors including our ability to maintain positive credit ratings. Ratings reflect a rating agency’s opinion of our financial strength, operating performance, strategic position, and ability to meet our obligations. In relation to our long-term debt instruments, we currently have long term ratings of “CARE A- Stable” from Care Ratings Limited. Any downgrade of our credit ratings would increase borrowing costs and constrain our access to capital and debt markets and, as a result, would negatively affect our net interest margin and our business. In addition, downgrades of our credit ratings could increase the possibility of additional terms and conditions being added to any additional financing or refinancing arrangements in the future. Any such adverse development could adversely affect our business, financial condition and results of operations.

Our business depends and will continue to depend on our ability to access diversified funding sources. Changes in economic and financial conditions or continuing lack of liquidity in the market could make it difficult for us to access funds at competitive rates. As an NBFC, we also face certain restrictions on our ability to raise money from international markets which may further constrain our ability to raise funds at attractive rates. While our borrowing costs have been competitive in the past due to our ability to raise debt products, credit rating and our asset portfolio, in the event we are unable to access funds at an effective cost that is comparable to or lower than our competitors, we may not be able to offer competitive interest rates for our loans. This may adversely impact our business and results of operations.

12. We face asset-liability mismatches which could affect our liquidity and consequently may adversely affect our operations and profitability.

We may face potential liquidity risks due to varying periods over which our assets and liabilities mature. As is typical for NBFCs, a portion of our funding requirements is met through short-term funding sources such as bank loans, working capital demand loans, cash credit, short term loans and commercial papers. Our inability to obtain additional credit facilities or renew our existing credit facilities, in a timely and cost-effective manner or at all, may lead to mismatches between our assets and liabilities, which in turn may adversely affect our operations and

financial performance.

13. We extend loans against shares, and loan against properties or a combination of both to our clients, and any default by a client coupled with a downturn in the stock markets could result in substantial losses for us.

We extend “loans against shares”, or margin funding loans, which are secured by liquid, marketable securities at appropriate or pre-determined margin levels. Recently as per RBI Master Direction NBFC-SI-ND Directions, 2016- RBI/DNBR/2016-17/45 Master Direction DNBR.PD.CC.No.086/03.10.001 dated September 01, 2016 (Updated as on May 31, 2018) has restricted ‘Loan against Shares’ business undertaken by NBFCs. Some of the requirements of such circular are: (a) LTV ratio should not exceed 50%, and only Group 1 securities can be accepted as collateral for loans of value more than Rs.5 lakh subject to review by RBI. In the event of a volatile stock market or adverse movements in stock prices, the collateral securing the loans may decrease significantly in value, resulting in LTV to fall below the prescribed limit of 50% and consequential losses which we may not be able to support. Customers may default on their obligations to us as a result of various factors including bankruptcy, lack of liquidity, lack of business and operational failure.

There is little financial information available about the creditworthiness of our customers. It is therefore difficult to carry out precise credit risk analysis on our clients. Although we use a technology-based risk management system and follow strict internal risk management guidelines on portfolio monitoring, which include limits on the amount of margin, the quality of collateral provided by the client and pre-determined margin call thresholds, no assurance can be given that if the financial markets witnessed a significant single-day or general downturn, our financial condition and results of operations would not be adversely affected.

14. We do not own the premises where our branch office(s) is/are located and in the event our rights over the properties is not renewed or is revoked or is renewed on terms less favourable to us, our business activities may be disrupted.

At present we do not own the premises for our branch office(s). In the event the owner of the premises revokes the consent granted to us or fails to renew the tenancy, we may suffer disruption in our operations for certain periods of time.

15. We require several licenses and approvals for our business and in the event we are unable to procure or renew them in time or at all, our business may be adversely affected.

We require several licenses, approvals and registration in order to undertake our business activities. These registrations include registrations with the RBI as a systemically important non-deposit taking NBFC. We are also required to maintain licenses under various state Shops and Establishment Acts for some of our offices. Failure by us to comply with the terms and conditions to which such permits or approvals are subject, and/or to renew, maintain or obtain the required permits or approvals may result in the interruption of our operations and may have a material adverse effect on our business, financial condition and results of operations.

16. A decline in our capital adequacy ratio could restrict our future business growth.

Pursuant to the revised regulatory framework for NBFCs issued by RBI, vide its RBI Master Direction NBFC-SI-ND Directions, 2016- RBI/DNBR/2016-17/45 Master Direction DNBR.PD.CC.No.086/03.10.001 dated September 01, 2016 (Updated as on May 31, 2018), all systemically important non-deposit taking NBFCs have to maintain a minimum capital ratio, consisting of Tier I and Tier II capital, which shall not be less than 15% of its aggregate risk weighted assets on balance sheet and risk adjusted value of off-balance sheet items and Tier I capital of 10% by March, 2018. On an unaudited basis, our capital adequacy ratio computed on the basis of applicable RBI requirements was 21.38 % as of December 31, 2018, with Tier I capital being 27.68% and Tier II Capital being 2.56% If we continue to grow our loan portfolio and asset base, we will be required to raise additional Tier I and Tier II capital in order to continue to meet applicable capital adequacy ratios with respect to our business. There can be no assurance that we will be able to raise adequate additional capital in the future on terms favourable to us or at all, and this may adversely affect the growth of our business.

17. We may have to comply with stricter regulations and guidelines issued by regulatory authorities in India.

We are regulated principally by and have reporting obligations to the RBI. We are also subject to the corporate, taxation and other laws in effect in India. Moreover, new regulations may be passed that restrict our ability to do business. For example, regulatory restrictions on securitisation may be extended to bilateral assignment transactions, resulting in loss of arbitrage options.

We cannot assure you that we will not be subject to any adverse regulatory action in the future. Further, these regulations are subject to frequent amendments and depend upon government policy. The costs of compliance may be high, which may affect our profitability. If we are unable to comply with any such regulatory requirements, our business and results of operations may be materially and adversely affected.

18. We are subject to certain restrictive covenants in our loan/ funding documents, which may restrict our operations and ability to grow and may adversely affect our business.

There are restrictive covenants in the agreements we have entered into with our lenders. These restrictive covenants require us to maintain certain financial ratios and seek the prior permission of these banks/financial institutions for various activities, including, amongst others, selling, leasing, transferring or otherwise disposing of any part of our business or revenues, effecting any scheme of amalgamation or reconstitution, implementing a new scheme of expansion, taking up an allied line of business or making any amendments to Memorandum and Articles of Association etc. Such restrictive covenants in our loan documents may restrict our operations or ability to expand and may adversely affect our business.

19. Our success depends in large part upon our management team and key personnel and our ability to attract, train and retain such persons. Our inability to attract and retain talented professionals, or the resignation or loss of key management personnel, may have an adverse impact on our business and future financial performance.

Our ability to sustain our rate of growth depends significantly upon our ability to manage key issues such as selecting and retaining key managerial personnel, developing managerial experience to address emerging challenges and ensuring a high standard of client service. In order to be successful, we must attract, train, motivate and retain highly skilled employees, especially branch managers and product executives. If we cannot hire additional qualified personnel or retain them, our ability to expand our business will be impaired and our revenue could decline. We will need to recruit new employees, who will have to be trained and integrated into our operations. We will also have to train existing employees to adhere properly to internal controls and risk management procedures. Failure to train and motivate our employees properly may result in an increase in employee attrition rates, require additional hiring, erode the quality of customer service, divert management resources, increase our exposure to high-risk credit and impose significant costs on us. Hiring and retaining qualified and skilled managers are critical to our future, as our business model depends on our credit-appraisal and asset valuation mechanism, which are personnel-driven operations. Moreover, competition for experienced employees can be intense. While we have an incentive structure and an Employee Incentive Plan/ ESOP designed to encourage employee retention, our inability to attract and retain talented professionals, or the resignation or loss of key management personnel, may have an adverse impact on our business and future financial performance.

20. We may not be able to successfully sustain our growth plans.

In recent years, our growth has been fairly substantial. Our growth plan includes growing our secured lending, expanding our customer base and presence. There can be no assurance that we will be able to sustain our growth plan successfully or that we will be able to expand further or diversify our product portfolio. If we grow our loan book too rapidly or fail to make proper assessments of credit risks associated with new borrowers, a higher percentage of our loans may become non-performing, which would have a negative impact on the quality of our assets and our financial condition.

We also face a number of operational risks in executing our growth strategy. Our branch network has expanded as part of our growth strategy. Our rapid growth exposes us to a wide range of increased risks, including business and operational risks, such as the possibility of growth of NPAs, fraud risks and regulatory and legal risks.

Our ability to sustain our rate of growth also significantly depends upon our ability to recruit trained and efficient personnel and retain key managerial personnel, maintain effective risk management policies, continuing to offer products which are relevant to our target base of clients, developing managerial experience to address emerging challenges and ensuring a high standard of client service. As we grow we will need to recruit new employees, who will have to be trained and integrated into our operations. We will also have to train existing employees to adhere properly to internal controls and risk management procedures. Failure to integrate our employees properly may result in an increase in employee attrition rates, erode the quality of customer service, divert management resources, increase our exposure to high-risk credit and impose significant costs on us.

21. Our insurance coverage may not adequately protect us against losses.

We maintain certain insurance coverage that we believe is adequate for our operations/ purposes. Our insurance policies, however, may not provide adequate coverage in certain circumstances and are subject to certain deductible s, exclusions and limits on coverage. We cannot, however, assure you that the terms of our insurance policies will be adequate to cover any damage or loss suffered by us or that such coverage will continue to be available on reasonable terms or will be available in sufficient amounts to cover one or more large claims, or that the insurer will not disclaim coverage as to any future claim.

A successful assertion of one or more large claims against us that exceeds our available insurance coverage or changes in our insurance policies, including premium increases or the imposition of a larger deductible or co - insurance requirement, could adversely affect our business, financial condition and results of operations.

22. Any change in control of our Promoter or our Company may correspondingly adversely affect our operations and profitability.

As on December 31, 2018, the Promoter holds 100% equity capital of the Company. Any change in control of the Promoter / Promoter Group may have an adverse effect on the operations of the Company including influencing the policies of the Company.

23. Our ability to assess, monitor and manage risks inherent in our business differs from the standards of some of our counterparts.

We are exposed to a variety of risks, including liquidity risk, interest rate risk, credit risk, operational risk and legal risk. The effectiveness of our risk management is limited by the quality and timeliness of available data. Our hedging strategies and other risk management techniques may not be fully effective in mitigating our risks in all market environments or against all types of risk, including risks that are unidentified or unanticipated. Some methods of managing risks are based upon observed historical market behaviour. As a result, these methods may not predict future risk exposures, which could be greater than the historical measures indicated. Other risk management methods depend upon an evaluation of information regarding markets, customers or other matters. This information may not in all cases be accurate, complete, up-to-date or properly evaluated. Management of operational, legal or regulatory risk requires among other

things, policies and procedures properly to record and verify a number of transactions and events. Although we have established these policies and procedures, they may not be fully effective.

Our future success will depend, in part, on our ability to respond to new technological advances and emerging banking and housing finance industry standards and practices on a cost-effective and timely manner. The development and implementation of such technology entails significant technical and business risks. There can be no assurance that we will be able to successfully implement new technologies or adapt its transaction processing systems to customer requirements or emerging market standards.

24. Our Company is exposed to many operational risks which could materially impact our business and results of operations.

Our Company is exposed to many types of operational risks. Operational risk can result from a variety of factors, including failure to obtain proper internal authorizations, improperly documented transactions, failure of operational and information security procedures, computer systems, software or equipment, fraud, inadequate training and employee errors. We attempt to mitigate operational risk by maintaining a comprehensive system of internal controls, establishing systems and procedures to monitor transactions, maintaining key back-up procedures, undertaking regular contingency planning and providing employees with continuous training. Any failure to mitigate such risks could adversely affect our business and results of operations.

25. High levels of customer defaults could adversely affect our business, financial condition and results of operations.

We are subject to customer default risks including default or delay in repayment of principal or interest on our loans. Customers may default on their obligations to us as a result of various factors including bankruptcy, lack of liquidity, lack of business and operational failure. If borrowers fail to repay loans in a timely manner or at all, our financial condition and results of operations will be adversely impacted.

26. Significant fraud, system failure or calamities could adversely impact our business.

We seek to protect our computer systems and network infrastructure from physical break-ins as well as fraud and system failures. Computer break-ins and power and communication disruptions could affect the security of information stored in and transmitted through our computer systems and network infrastructure. We employ security systems, including firewalls and password encryption, designed to minimize the risk of security breaches. Although we intend to continue to implement security technology and establish operational procedures to prevent fraud, break-ins, damage and failures, there can be no assurance that these security measures will be adequate. A significant failure of security measures or operational procedures could have a material adverse effect on our business and our future financial performance. Although we take adequate measures to safeguard against system-related and other frauds, there can be no assurance that it would be able to prevent frauds.

We are exposed to many types of operational risks, including the risk of fraud or other misconduct by employees and unauthorized transactions by employees. Although we have been careful in recruiting all our employees, we have in the past been held liable for the fraudulent acts committed by our employees adversely impacting our business. Our reputation could be adversely affected by significant frauds committed by employees, customers or outsiders.

27. We depend on the accuracy and completeness of information about customers and counterparties which may adversely affect our reputation and business.

In deciding whether to extend credit or enter into other transactions with customers and counterparties, we may rely on information furnished to us by or on behalf of customers and counterparties, including financial statements and other financial information. We may also rely on certain representations as to the accuracy and completeness of that information and, with respect to financial statements, on reports of independent auditors. For example, in deciding whether to extend credit, we may assume that a customer's audited financial statements conform to generally accepted accounting principles and present fairly, in all material respects, the financial condition, results of operations and cash flows of the customer. Our financial condition and results of operations could be negatively affected by relying on financial statements that do not comply with generally accepted accounting principles or other information that is materially misleading.

Moreover, we have implemented KYC norms and other measures, to prevent money laundering. In the event of ineffectiveness of these norms and systems, our reputation, business and results of operations may be adversely affected.

28. Inaccurate appraisal of credit may adversely impact our business.

We may be affected by failure of employees to comply with internal procedures and inaccurate appraisal of credit or financial worth of our clients. Inaccurate appraisal of credit may allow a loan sanction which may eventually result in a bad debt on our books of accounts. In the event we are unable to check the risks arising out of such lapses, our business and results of operations may be adversely affected.

29. We have entered into some related party transactions and may continue to enter into related party transactions, which may involve conflict of interest.

Our Company enters into transactions with the related parties in the ordinary course of business pursuant to the applicable provisions of the Companies Act, 2013. Such transactions may give rise to current or potential conflicts of interest with respect to dealings between us and such related parties.

30. Our Group Companies may be subject to certain legal proceedings and we cannot assure you that we will be successful in all of these actions. In the event we are unsuccessful in litigating any or all of the disputes, our business and results of operations may be adversely affected.

Our group companies may be subject to a number of legal proceedings. We may incur a substantial cost in defending these proceedings before a court of law. Moreover, we are unable to assure you that we shall be successful in any or all of these actions. In the event we suffer any adverse order, our reputation may suffer and may have an adverse impact on our business and results of operations

External Risk Factors:

31. Our results of operations have been, and may continue to be, adversely affected by Indian and international financial market and economic conditions.

Our business is highly dependent on Indian and international markets and economic conditions. Such conditions in India include fluctuations in interest rates; changes in consumer spending; the level of consumer confidence; housing prices; corporate or other scandals that reduce confidence in the financial markets, among others. International markets and economic conditions include the liquidity of global financial markets, the level and volatility of debt and equity prices and interest rates, investor sentiment, inflation, the availability and cost of capital and credit, and the degree to which international economies are expanding or experiencing recessionary pressures. The independent and/or collective fluctuation of these

conditions can directly and indirectly affect demand for our lending finance and other financial products, or increase the cost to provide such products.

Global financial markets were and continue to be extremely volatile and were materially and adversely affected by a significant lack of liquidity, decreased confidence in the financial sector, disruptions in the credit markets, reduced business activity, rising unemployment, declining home prices and erosion of consumer confidence. These factors have contributed to and may continue to adversely affect our business, financial condition and results of operations.

32. Financial difficulties and other problems in certain financial institutions in India could cause our business to suffer and adversely affect our results of operations.

We are exposed to the risks of the Indian financial system, which in turn may be affected by financial difficulties and other problems faced by certain Indian financial institutions. Certain Indian financial institutions have experienced difficulties during recent years. There has been a trend towards consolidation with weaker banks and NBFCs being merged with stronger entities. The problems faced by individual Indian financial institutions and any instability in or difficulties faced by the Indian financial system generally could create adverse market perception about Indian financial institutions, banks and NBFCs. This in turn could adversely affect our business, our future financial performance, our shareholders' funds and the market price of our NCDs.

33. Terrorist attacks, civil unrest and other acts of violence or war involving India and other countries could adversely affect the financial markets and our business.

Terrorist attacks and other acts of violence or war may negatively affect our business and may also adversely affect the worldwide financial markets. These acts may also result in a loss of business confidence. In addition, any deterioration in relations between India and its neighboring countries might result in investor concern about stability in the region, which could adversely affect our business.

India has also witnessed civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic and political events in India could have a negative impact on us. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse impact on our business and the market price of our NCDs.

34. Natural calamities could have a negative impact on the Indian economy, particularly the agriculture sector, and cause our business to suffer.

India has experienced natural calamities such as earthquakes, a tsunami, floods and drought in the past few years. The extent and severity of these natural disasters determines their impact on the Indian economy. The erratic progress of the monsoon in 2012 affected sowing operations for certain crops. Further, prolonged spells of below normal rainfall or other natural calamities could have a negative impact on the Indian economy thereby, adversely affecting our business.

35. Any downgrading of India's debt rating by an international rating agency could have a negative impact on our business.

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, the interest rates and other commercial terms at which such additional financing is available. This could have a material adverse effect

on our business and financial performance, our ability to raise financing for onward lending and the price of our NCDs.

36. Instability of economic policies and the political situation in India could adversely affect the fortunes of the industry.

There is no assurance that the liberalization policies of the government will continue in the future. Protests against privatization could slow down the pace of liberalization and deregulation. The Government of India plays an important role by regulating the policies and regulations that govern the private sector. The current economic policies of the government may change at a later date. The pace of economic liberalization could change and specific laws and policies affecting the industry and other policies affecting investments in our Company's business could change as well. A significant change in India's economic liberalization and deregulation policies could disrupt business and economic conditions in India and thereby affect our Company's business.

Unstable domestic as well as international political environment could impact the economic performance in the short term as well as the long term. The Government of India has pursued the economic liberalization policies including relaxing restrictions on the private sector over the past several years. The present Government has also announced policies and taken initiatives that support continued economic liberalization.

The Government has traditionally exercised and continues to exercise a significant influence over many aspects of the Indian economy. Our Company's business may be affected not only by changes in interest rates, changes in Government policy, taxation, social and civil unrest but also by other political, economic or other developments in or affecting India.

37. Companies operating in India are subject to a variety of central and state government taxes and surcharges.

Tax and other levies imposed/to be imposed by the central and state governments in India that affect our tax liability include: (i) central and state taxes and other levies; (ii) income tax; (iii) value added tax; (iv) turnover tax; (v) service tax; (vi) stamp duty; (vii) GST and (viii) other special taxes and surcharges which are introduced on a temporary or permanent basis from time to time. Moreover, the central and state tax scheme in India is extensive and subject to change from time to time. For example, a Direct tax code is proposed to be introduced in the Indian Parliament.

The statutory corporate income tax in India, which includes a surcharge on the tax and an education cess on the tax and the surcharge could change. The central or state government may in the future increase the corporate income tax it imposes. Any such future increases or amendments may affect the overall tax efficiency of companies operating in India and may result in significant additional taxes becoming payable. Additional tax exposure could adversely affect our business and results of operations.

38. Financial instability in other countries could disrupt our business.

The Indian market and the Indian economy are influenced by economic and market conditions in other countries. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the economy as a whole, in other countries, including India. A loss of investor confidence in the financial systems of other emerging markets may cause volatility in Indian financial markets and indirectly, in the Indian economy in general. Any worldwide financial instability could

also have a negative impact on the Indian economy, including the movement of exchange rates and interest rates in India.

In the event that the current difficult conditions in the global credit markets continue or if the recovery is slower than expected or if there any significant financial disruption, this could have an adverse effect on our cost of funding, loan portfolio, business, prospects, results of operations and financial condition.

39. There is no assurance that the NCDs issued pursuant to this Issue will be listed on Stock Exchanges in a timely manner, or at all.

In accordance with Indian law and practice, permissions for listing and trading of the NCDs issued pursuant to this Issue will not be granted until after the NCDs have been issued and allotted. Approval for listing and trading will require all relevant documents to be submitted and carrying out of necessary procedures with the Exchanges. There could be a failure or delay in listing the NCDs on the Stock Exchange for reasons unforeseen. If permission to deal in and for an official quotation of the NCDs is not granted by the Stock Exchanges, our Company will forthwith repay, without interest, all monies received from the Applicants in accordance with prevailing law in this context, and pursuant to the Prospectus.

40. Foreign Investors, including FPIs subscribing to the NCDs are subject to risks in connection with (i) exchange control regulations, and, (ii) fluctuations in foreign exchange rates. Kindly note, foreign investors are not allowed to invest in these debentures.

The NCDs will be denominated in Indian rupees and the payment of interest and Redemption Amount shall be made in Indian rupees. Various statutory and regulatory requirements and restrictions apply in connection with the NCDs held by NRIs, QFIs and FPIs (Exchange Control Regulations). The amounts payable to NRIs, QFIs and FPIs holding the NCDs, on redemption of the NCDs and/or the interest paid/payable in connection with such NCDs would accordingly be subject to prevailing Exchange Control Regulations. Any change in the Exchange Control Regulations may adversely affect the ability of such NRIs, QFIs and FPIs to convert such amounts into other currencies, in a timely manner or at all.

Further, fluctuations in the exchange rates between the Indian rupee and other currencies could adversely affect the amounts realized by NRIs, QFIs and FPIs on redemption or payment of interest on the NCDs by us.

41. The offering of NCDs to FPIs is subject to restrictions imposed by jurisdictions where such investors are resident in and of laws to which they are otherwise subject to. Kindly note, foreign investors are not allowed to invest in these debentures.

FPIs, QFIs and NRIs who intend to participate in the Issue must comply with the laws, rules and regulations of the jurisdiction they are resident in and laws, rules and regulations to which they are otherwise subject to in connection with the purchase and sale of NCDs. No offer or sale of NCDs, pursuant to this Prospectus or otherwise, is being made in the United States or any other jurisdiction where it is unlawful to do so.

The NCDs have not been recommended by any U.S. federal or state securities commission or regulatory authority. Furthermore, the foregoing authorities have not confirmed the accuracy or determined the adequacy of this Prospectus. Any representation to the contrary is a criminal offence in the United States and may be a criminal offence in other jurisdictions. The NCDs have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the “U.S. Securities Act”) or any state securities laws in the United States and may not be offered or sold within the United States, or to, or for the account or benefit of, U.S. Persons (as defined in Regulation S of the U.S. Securities Act), except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act

and applicable state securities laws in the United States. No offers or sales of the NCDs are being made in the United States. Further, any person making or intending to make an offer of the NCDs within the European Economic Area (“EEA”) should only do so in circumstances in which no obligation arises for the Issuer to produce a Prospectus in such jurisdiction for such offer. Such persons shall refer to the specific Disclaimer as displayed in Company’s website in this regard.

Product related risk factors:

(a) The composition of the securities underlying the Reference Index to which a Debenture may be linked may change over time.

The composition of the constituents of the Reference Index to which the Debentures are linked may change over time. The Reference Index sponsor may, in its sole discretion, add, delete or substitute the securities underlying the index or make other methodological changes required by certain corporate events relating to the securities underlying the Reference Index that could change the value of the index. There may be additions to the securities in Reference Index to which the Registered Debenture Holders may not want exposure, or deletions of securities to which they would want exposure. The Registered Debenture Holders should not place undue reliance on the creditworthiness, business plans or prospects or other factors relating to any particular issuer of constituents of Reference Index as of the date hereof.

(b) Disclaimer in relation to Valuation.

The Issuer has appointed a Valuation Agent. Any valuations as may be provided by the Valuation Agent, on the website of the Issuer and the Valuation Agent or otherwise, do not represent the actual price of the Debentures that may be received upon sale or redemption of Debentures. They merely represent the Valuation Agent’s computation of the valuation which may in turn be based on several assumptions.

The valuation will reflect the independent views of the Valuation Agent. It is expressly stated that the valuation will not be the view of the Issuer or its affiliates. The Issuer will not review the valuation and will not be responsible for the accuracy of the valuations. The valuations that will be provided by the Valuation Agent and made available on the website of the Issuer and the Valuation Agent, at a frequency of not less than once a calendar week, and the said valuation will not represent the actual price that may be received upon sale or redemption of the Debentures. It will merely represent the Valuation Agent’s computation of the valuation which may in turn be based on several assumptions. The valuations that will be provided by the Valuation Agent may include the use of proprietary models (that are different from the proprietary models used by the Issuer and/or the Valuation agent) and consequently, valuations provided by other parties (including the Issuer and/or the Valuation agent) may be significantly different.

Structure Risks

PROSPECTIVE INVESTORS ARE ADVISED TO CAREFULLY READ THESE KEY RISKS ASSOCIATED WITH THE DEBENTURES. THESE RISKS ARE NOT, AND ARE NOT INTENDED TO BE, A COMPLETE LIST OF ALL RISKS AND CONSIDERATIONS RELEVANT TO THE DEBENTURES OR YOUR DECISION TO PURCHASE THE DEBENTURES.

The Debentures being structured debentures are sophisticated instruments which involve a significant degree of risk and are intended for sale only to those Investors capable of understanding the risks involved in such instruments. Please note that both the return on the Debentures and the return of the principal amount in full are at risk if the Debentures are not held till, or for any reason have to be sold or redeemed, before the final Redemption Date. The Debentures are a principal protected product only upon maturity.

The Debentures are structured and are complex and an investment in such a structured product may involve a higher risk of loss of a part of the initial investment as compared to investment in other securities unless held till final Redemption Date. The Registered Debenture Holder shall receive at least the face value of the Debenture only if the Investor holds and is able to hold the Debentures till the final Redemption Date. Prior to investing in the Debentures, a prospective Investor should ensure that such prospective Investor understands the nature of all the risks associated with the investment in order to determine whether the investment is suitable for such prospective Investor in light of such prospective Investor's experience, objectives, financial position and other relevant circumstances. Prospective Investors should independently consult with their legal, regulatory, tax, financial and/or accounting advisors to the extent the prospective Investor considers necessary in order to make their own investment decisions.

An investment in Debentures where the payment of premium (if any), and/or coupon and/or other consideration (if any) payable or deliverable thereon is determined by reference to one or more equity or debt securities, indices, baskets, formulas or other assets or basis of reference will entail significant risks not associated with a conventional fixed rate or floating rate debt security. Such risks include, without limitation, changes in the level or value of the relevant underlying equity or debt securities or basket or index or indices of equity or debt securities or other underlying asset or basis of reference and the holder of the Debentures may receive a lower (or no) amount of premium, coupon or other consideration than the holder expected. The Company has no control over a number of matters that are important in determining the existence, magnitude and longevity of such risks and their results, including, but not limited to, economic, financial and political events. In addition, if an index or formula used to determine any amounts payable or deliverable in respect of the Debentures contains a multiplier or leverage factor, the effect of any change in such index or formula will be magnified. In recent times, the values of certain indices, baskets and formulas have been volatile and volatility in those and other indices, baskets and formulas may occur in the future.

Model Risk

Investment in the Debentures is subject to model risk. The Debentures are created on the basis of complex mathematical models involving multiple derivative exposures which may or may not be hedged and the actual behaviour of the securities selected for hedging may significantly differ from the returns predicted by the mathematical models.

Prepayment or Early Redemption or Premature Exit

The Investor may lose money or may not be able to sell their debentures, if the Company decides to prepay or early redeem or decides to exit prematurely.

Credit Risk

While, the repayment of sums due at maturity is provided by the Issuer, Investors should be aware that receipt of any coupon payment and principal amount at maturity on the Debentures is subject to the credit risk of the Issuer. Investors assume the risk that the Company will not be able to satisfy their obligations under the Debentures and Investor may or may not recover all or part of the Principal Amount in case of default by the Issuer. Any stated credit rating of the Company reflects the independent opinion of the referenced rating agency as to the creditworthiness of the rated entity but is not a guarantee of credit quality of the Company. Any downgrading of the credit ratings of the Company or its parent or affiliates, by any rating agency could result in a reduction in the value of the Debentures. In the event that bankruptcy proceedings or composition, scheme of arrangement or similar proceedings to avert bankruptcy are instituted by or against the Company, the payment of sums due on the Debentures may be substantially reduced or delayed.

The Debenture holders should consult their own tax, legal, accounting experts to determine the impact of any change in valuation, returns etc of these debentures in case of any prepayment or early redemption or premature exit by the Company.

Risks relating to Debentures due to linkages to the reference asset

An investment in any series of Debentures that has payments of principal, coupon or both, indexed to the value of any equity share, index or any other rate, asset or index, or a basket including one or more of the foregoing and /or to the number of observation of such value falling within or outside a pre-stipulated range (each of the foregoing, a **“Reference Value”**) will entail significant risks not associated with a conventional fixed rate or floating rate debt security. Such risks include, without limitation, changes in the applicable Reference Value and how such changes will impact the amount of any principal or coupon payments linked to the applicable Reference Value. The Company has no control over a number of matters that are important in determining the existence, magnitude and longevity of such risks and their results, including economic, financial and political events. Past performance of any Reference Value to which any principal or coupon payments may be linked is not necessarily indicative of future performance. Investors should be aware that a Reference Value may go down as well as up and/or be volatile and the resulting impact such changes will have on the amount of any principal or coupon payments will depend on the applicable index formula. The Registered Debenture Holder shall receive at least the face value of the Debenture only if the Investor holds and is able to hold the Debentures and the Debentures are not sold or redeemed or bought back till the Final Maturity Date.

If so specified, the early redemption amount, if any, may in certain circumstances be determined by the Valuation Agent based upon the market value of the Debentures less any costs associated with unwinding any hedge positions relating to the particular series of Debentures. In the event the terms and conditions do not provide for a minimum redemption amount even in the event of an early redemption, then on such occurrence a holder may receive less than 100.00% of the principal amount. In case of principal/capital protected market linked debentures, the principal amount is subject to the credit risk of the Issuer whereby the Registered Debenture Holder may or may not recover all or part of the funds in case of default by the Issuer. However, if the Debentures are held till the final maturity date, subject to credit risk of the Issuer, the Registered Debenture Holder of the Debenture will receive at least the principal amount.

The Debentures are likely to be less liquid than conventional fixed or floating rate debt instruments. No representation will be made as to the existence of a market for a series of Debentures. While the Company intends under ordinary market conditions to indicate and/or procure indication of prices for any such Debentures there can be no assurance as to the prices that would be indicated or that the Company will offer and/or cause to purchase any Debentures. The price given, if any, will be affected by many factors including, but not limited to, the remaining term and outstanding principal amount of the particular series of Debentures, the level of the Reference Value, fluctuations in interest rates and/or in exchange rates, volatility in the Reference Value used to calculate the amount of any coupon or principal payments, and credit spreads. Consequently, prospective Investors must be prepared to hold any series of Debentures for an indefinite period of time or until the redemption or maturity of the Debentures. Trading levels of any Debentures will be influenced by, among other things, the relative level and performance of the applicable Reference Value and the factors described above.

Early Redemption for Extraordinary Reason, Illegality and Force Majeure, if for reasons beyond the control of the Issuer, the performance of the Issuer's obligations under the Debentures is prevented by reason of force majeure including but not limited to an act of state or situations beyond the reasonable control of the

Issuer, occurring after such obligation is entered into, or has become illegal or impossible in whole or in part or in the exercising of its rights, the Issuer may at its discretion and without obligation to do so, redeem and/or arrange for the purchase of all but not some of the Debentures, by giving notice of not less than 5 (five) Business Days to the Registered Debenture Holders which notice shall be irrevocable and shall specify the date upon which the Debentures shall be redeemed (such date on which the Debentures become immediately due and payable, the “Early Redemption Date”).

Provided however if the Issuer believes or is advised that it is necessary to only redeem and/or arrange for the purchase of Debentures held by only certain class of Registered Debenture Holders to overcome or mitigate any such force majeure, then the Issuer may without obligation to do so, redeem and/or arrange for the purchase of only such number of Debentures actually held by such class of Registered Debenture Holders at the relevant time. If the Debentures are bought by the Issuer, the Issuer will, if and to the extent permitted by applicable law, pay to each Registered Debenture Holder in respect of each Debenture held by such holder an amount equal to the Early Redemption Amount of a Debenture notwithstanding the illegality or impracticability, as determined by the Calculation Agent in its sole and absolute discretion.

Early Redemption Amount means fair market value as determined by the Calculation Agent minus associated costs.

No Claim against reference asset

Registered Debenture Holders do not have any interest in or rights to the underlying assets, indices or securities to which Debentures relate.

III. Brief Summary of the Business/ Activities of the Issuer and its Line of Business:

a. Overview of Business:

Centrum Financial Services Limited (CFSL), with its team of rapidly growing professionals, each with diverse and in-depth banking experience, provides a strong credit evaluation and compliance mechanism through a complete digitized process. We actively collaborate with Centrum Group's well-established investment banking, real estate, debt capital markets and wealth management businesses for cross-selling, sourcing and down-selling of credit products.

A. Commercial Finance

With the focus area being SMEs, mid-market companies, small companies and smaller affiliates of larger companies, CFSL's Commercial Finance and structured credit consist of the full range of products.

For the purpose of working capital or moderate-sized expansions, we provide loans of up to Rs. 250 million, primarily on the basis of business credentials and cash flow prospects. CFSL has also built up a book of business loans and smaller-value loans, primarily collateralized by property and other securities, and targeted at Tier 1 & 2 cities initially.

Additionally, we will help fledgling NBFCs with loans in socially responsible and undeserved areas such as microfinance, affordable housing and specialized lending for the purpose of on-lending to their end-clientele.

B. Financial Intermediaries

In the 'Financial Intermediaries' segment, the main objective is to support financial institutions (NBFCs) that are serving the unbanked/less banked segments of the population.

CFSL is working with Microfinance Institutions; NBFCs lending to MSMEs (Micro, Small and Medium Enterprises), Agri Value chain, Education, Rural connectivity etc, to enhance their ability to extend credit to the masses after doing appropriate due-diligence on the entity's operating methodology, financials, promoter and management background, governance practices, IT system etc.

CFSL engages with these institutions to offer products and services ranging from funding as term loan, structured credit, and also towards arranging debt, equity, insurance and related products through Centrum Group companies.

C. Supply Chain Financing Solutions

(i) Dealers Finance

This Invoice Discounting financing facility is available for channel partners of Corporates. It enables the conversion of their receivables into cash which in turn improves liquidity resulting into a healthy and continuous cash flow for the businesses. Industrywide benefits of the Dealers financing solution are:

- Facilitates increased sales through higher purchasing power for channel partners
- Instant conversion of receivables into cash
- Assures availability of working capital finance to channel partners at a competitive cost
- Simple Documentation, Fast Turn Around Times and simple procedures
- Faster payments leading to cash discounts from the company

(ii) Receivables Discounting Finance

This Receivables Discounting facility helps Corporates encash their Receivables before time, to help the Business grow rapidly and avoid Cash Flow issues. There are tested benefits of the Receivables financing solution including:

- Instant conversion of a high percentage of your receivables into cash
- Simple Documentation, Faster Turnaround times and easy process
- Provides you Funding to grow your business at a competitive cost.
- CFSL collects the receivables and routes balance payments back to you.

D. Real Estate Solutions

CFSL's Real Estate business vertical provides construction finance, take-out financing, promoter financing and acquisition financing for real estate projects being developed across India. Within the sector, the focus is on mid-income to affordable housing projects being developed in Tier 1 and 2 cities like Mumbai, Delhi NCR, Bangalore, Hyderabad, Pune, Chennai, Kolkata and Ahmedabad.

The capital is provided through combination of Term Loans, Working Capital Loans or Non-Convertible Debentures. The Company typically prefers to invest in cash-flow generating ongoing projects, which are RERA registered and have all approvals in place.

Salient Features:

- Credit facilities of a meaningful quantum, assessed as per CFSL parameters
- Purpose – Construction Finance, take-over of existing credit facilities as well as general corporate purposes
- Tenure up to 5 years, including interest moratorium
- Security in the form of exclusive charge on the project land and structure thereon (both present and future).

Any change in accounting policies during the last three years and their effect on the profits and the reserves of the Issuer:

1. Ancillary borrowing cost

During the current year, the Company has changed its policy for accounting of ancillary borrowing costs from recording it in the year in which these were incurred to amortising such costs over the tenure of the underlying borrowings.

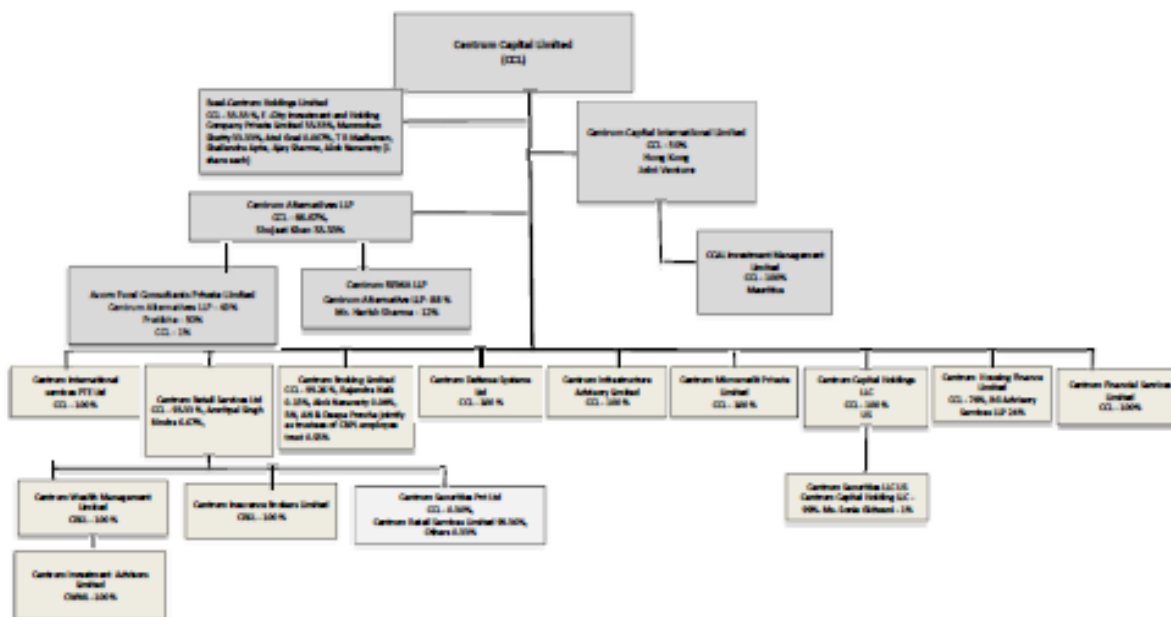

Had the Company applied the accounting policy as in the previous year, the profit for the year would have been lower by Rs. 11,843,750.

2. Amalgamation

The Company has amalgamated with two entities namely Shree Srinivas Realtors Private Limited ('SSRPL') and Agrata Mercantile Private Limited ('AMPL') w.e.f. 01 April 2017. The amalgamation was in the nature of purchase accounting for which has been done following the net assets method as per Accounting Standard ("AS") 14 issued by the Institute of Chartered Accountants of India ("ICAI"). The assets and liabilities have been taken over at their fair values which has resulted in Goodwill on amalgamation amounting to Rs.

155,21,982 which has been amortised over a period of 11 years as considered reasonable by the management.

Our Corporate Structure

A brief history of the Issuer since its incorporation giving details of its activities including any reorganization, reconstruction or amalgamation, changes in its capital structure, (authorized, issued and subscribed) and borrowings, if any.

Corporate profile

The Company is promoted by Centrum Capital Limited. The Company was originally incorporated in the year 1993 and continued its business activities till 2004. Centrum Group decided to take it over in 2008 for venturing into fund based activities. It is now a 100% subsidiary of Centrum Capital Ltd, the flagship Company of Centrum Group. The Company is registered with the Reserve Bank of India ("RBI") under Section 45-IA of the Reserve Bank of India Act, 1934, by a Certificate of Registration No. N-13.01925 dated August 14, 2009 and is now Systematically Important Non-Banking (Non Deposit Accepting) Financial Company. Centrum Financial Services Limited (CFSL), with its team of rapidly growing professionals, each with diverse and in-depth banking experience, provides a strong credit evaluation and compliance mechanism through a complete digitized process. We actively collaborate with Centrum Group's well-established investment banking, real estate, debt capital markets and wealth management businesses for cross-selling, sourcing and down-selling of credit products.

The market lot will be 10 Debenture (“**Market Lot**”). Since the Debentures are being issued only in dematerialized form, the odd lots will not arise either at the time of issuance or at the time of transfer of debentures.

Payment on Redemption

In case of the Debentures held in demat form, no action is required on the part of the debenture holder(s) at the time of redemption of the Debentures and on the Redemption Date, the redemption proceeds would be paid to those debenture holder(s) whose name(s) appear on the list of beneficial owners given by the Depositories to the Company. The name(s) would be as per the Depositories' records on the record date fixed for the purpose of redemption. All such Debentures will be simultaneously redeemed through appropriate debit corporate action.

The redemption proceeds shall be directly credited through Electronic Clearing Service (ECS), RTGS or National Electronic Funds Transfer (NEFT) and where such facilities are not available the Company shall make payment of all such amounts by way of cheque/ demand draft. The cheque/demand draft for redemption proceeds, will be dispatched by courier or hand delivery or registered post at the address provided in the Application / at the address as notified by the debenture holder(s) or at the address with Depositories' record. Once the redemption proceeds have been credited to the account of the debenture holder(s) or the cheque/demand draft for redemption proceeds is dispatched to the debenture holder(s) at the addresses provided or available from the Depositories record, the Company's liability to redeem the Debentures on the date of redemption shall stand extinguished and the Company will not be liable to pay any interest, income or compensation of any kind from the date of redemption of the Debenture(s).

Right to Reissue Debenture(s)

Where the Company has redeemed or repurchased any Debenture(s), the Company shall have and shall be deemed always to have had the right to keep such Debentures alive without extinguishment for the purpose of resale or reissue and in exercising such right, the Company shall have and be deemed always to have had the power to resell or reissue such Debentures either by reselling or reissuing the same Debentures or by issuing other Debentures in their place. This includes the right to reissue original Debentures.

Transfer/Transmission of Debentures

The Debentures shall be transferred or transmitted freely in accordance with the applicable provisions of the Companies Act, 2013 as amended. The provisions relating to transfer and transmission and other related matters in respect of our shares contained in the Articles, the Companies Act, 2013 as amended shall apply, mutatis mutandis, to the extent applicable to Debentures, as well.

The Debentures held in dematerialised form shall be transferred subject to and in accordance with the rules/procedures as prescribed by NSDL/CDSL and the relevant DP of the transferor or transferee and any other applicable laws and rules notified in respect thereof. The transferee(s) should ensure that the transfer formalities are completed prior to the record date. In the absence of the same, interest will be paid/redemption will be made to the person, whose name appears in the register of debenture holders maintained by the Depositories/Company, as the case may be. In such cases, claims, if any, by the transferees would need to be settled with the transferor(s) and not with us or Registrar.

List of Beneficial Owners

The Company shall request the Depository to provide a list of Beneficial Owners as on the Record Date. This list shall be considered for payment of interest or repayment of principal amount, as the case may be.

Debenture Redemption Reserve

In line with the Companies Act, 2013 read with the rules issued thereunder, Debenture Redemption Reserve is not required to be created for issue of privately placed debentures by Non-Banking Finance Companies registered with the Reserve Bank of India.

Notices

The notices to the Debenture holder(s) required to be given by the Company or the Trustees shall be deemed to have been given if sent by registered post to the sole/first allottee or sole/first registered holder of the Debentures, as the case may be to the address registered with the Company. All notices to be given by the Debenture holder(s) shall be sent by registered post or by hand delivery to Registrars or to such persons at such address as may be notified by the Company from time to time.

All transfer related documents, tax exemption certificates, intimation for loss of Letter of Allotment/Debenture(s), etc., requests for issue of duplicate debentures etc. and/or any other notices / correspondence by the Debenture holder(s) to the Company with regard to the issue should be sent by Registered Post or by hand delivery to the Registrar, or to such persons at such persons at such address as may be notified by the Company from time to time.

Sharing of Information

The Company may, at its option, use on its own, as well as exchange, share or part with any financial or other information about the Debenture holders available with the Company, with its subsidiaries and affiliates and other banks, financial institutions, credit bureaus, agencies, statutory bodies, as may be required and neither the Company or its subsidiaries and affiliates nor their agents shall be liable for use of the aforesaid information.

Key Regulations & Policies

The following description is a summary of certain laws applicable in India to the business of our Company. The summary of laws, regulations and policies set forth below is not exhaustive and is only intended to provide general overview.

Our Company is engaged in the business of providing loans against collaterals. We are governed by the laws governing service sector enterprises and commercial establishments. We are a non-deposit taking (which does not accept public deposits), systemically important, NBFC. As such, our business activities are regulated by RBI regulations applicable to non-public deposit accepting systemically important NBFCs ("**ND-SI NBFC**").

Taxation statutes such as the Income Tax Act, 1961, the Finance Act, 1994, the Shops and Establishments Act, 1958, labour regulations such as the Employees' State Insurance Act, 1948 and the Employees' Provident Fund and Miscellaneous Act, 1952, and other miscellaneous regulations and statutes apply to us as they do to any other Indian company. The statements below are based on the current provisions of Indian law, and the judicial and administrative interpretations thereof, which are subject to change or modification by subsequent legislative, regulatory, administrative or judicial decisions.

Regulations governing NBFCs

As per the RBI Act, a financial institution has been defined as a company which includes a non-banking institution carrying on as its business or part of its business the financing activities, whether by way of making loans or advances or otherwise, of any activity, other than its own and it is engaged in the activities of loans and advances, acquisition of shares / stock / bonds / debentures / securities issued by the Government of India or other local authorities or other marketable securities of like nature, leasing, hire-purchase, insurance business, chit business but does not include any institution whose principal business is that of carrying out any agricultural or industrial activities or the sale / purchase / construction of immovable property.

As per prescribed law any company that carries on the business of a non-banking financial institution as its 'principal business' is to be treated as an NBFC. The term 'principal business' has not been defined in any statute, however, RBI has clarified through a press release (Ref. No. 1998-99/ 1269) issued in 1999, that in order to identify a particular company as an NBFC, it will consider both the assets and the income pattern

as evidenced from the last audited balance sheet of the company to decide a company's principal business. The company will be treated as an NBFC if its financial assets are more than 50 per cent of its total assets (netted off by intangible assets) and income from financial assets should be more than 50 per cent of the gross income. Both these tests are required to be satisfied in order to determine the principal business of a company.

Every NBFC is required to submit to the RBI a certificate, from its statutory auditor within one month from the date of finalization of the balance sheet and in any case not later than December 30 of that year, stating that it is engaged in the business of non-banking financial institution requiring it to hold a certificate of registration.

NBFCs are primarily governed by the RBI Act, the Prudential Norms for Systemically Important Non-Deposit Taking Norms for Non-Banking Financial Company, 2017 read with RBI Norms for Raising Money through Private Placement of Non-Convertible Debentures (NCDs) issued vide circular bearing reference DNBR (PD) CC No.021/03.10.001/2014-15 dated February 20, 2015. In addition to these regulations, NBFCs are also governed by various circulars, notifications, guidelines and directions issued by the RBI from time to time.

Securities Contract Regulation Act, 1956

The Securities Contract (Regulation) Act, 1956 as amended till date ("SCRA") seeks to prevent undesirable transactions in securities by regulating the business of dealing in securities and other related matters. The SCRA provides for grant of recognition for stock exchanges by the Central Government. Every recognized stock exchange is required to have in place a set of rules relating to its constitution and bye-laws for the regulation and control of contracts. The said act deals with recognition, derecognition, regulation / control on the stock exchanges, empowers the stock exchanges for making its own bye laws, rules and the provisions pertaining to listing of securities, delisting of securities and dealing in securities. The said enactment also provides for appellate mechanism.

The bye-laws inter-alia provide for:

- (i) the opening and closing of markets and the regulation of the hours of trade;
- (ii) the fixing, altering or postponing of days for settlements;
- (iii) the determination and declaration of market rates, including the opening, closing highest and lowest rates for securities;
- (iv) the terms, conditions and incidents of contracts, including the prescription of margin requirements, if any, and conditions relating thereto, and the forms of contracts in writing;
- (v) the regulation of the entering into, making, performance, recession and termination of contracts, including contracts between members or between a member and his constituent.

Other disclosures in accordance with Section 42 of the Companies Act, 2013 and rule 14(1) of Companies (Prospectus and Allotment of Securities) Rules, 2014

(Provided in Form PAS – 4 annexed as Annexure F)

DECLARATION

It is hereby declared that this Disclosure Document contains disclosures in accordance with (i) Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 as amended from time to time; (ii) the Companies Act, 2013 and rules made thereunder; (iii) other regulatory requirements.

The Directors of the Issuer declare that:

- (i) the Issuer has complied with the provisions of the Companies Act and the rules made thereunder;
- (ii) the compliance with the Companies Act and the rules does not imply that payment of dividend or interest or repayment of debentures, if applicable, is guaranteed by the Central Government;
- (iii) the monies received under the offer shall be used only for the purposes and objects indicated in the Offer letter/disclosure document.

I am authorized by the Board of Directors of the Company vide resolution number 15 dated May 16, 2018 and Fund Raising Committee resolution dated October 16, 2018 to sign this form and declare that all the requirements of the Companies Act, 2013 and the rules made thereunder in respect of the subject matter of this form and matters incidental thereto have been complied with. Whatever is stated in this form and in the attachments thereto is true, correct and complete and no information material to the subject matter of this form has been suppressed or concealed and is as per the original records maintained by the promoters subscribing to the Memorandum of Association and Articles of Association.

It is further declared and verified that all the required attachments have been completely, correctly and legibly attached to this form.

The Company accepts no responsibility for the statement made otherwise than in the Disclosure Document or in any other material issued by or at the instance of the Company and that anyone placing reliance on any other source of information would be doing so at his own risk.

*Details of Instruments/Facilities in Annexure 1***Detailed Rationale & Key Rating Drivers**

The rating factors in the benefits of being part of the Centrum Group which has established presence in the financial services segment through Centrum Wealth Management, Centrum Broking Services and other subsidiaries. The rating further factors in the experience of the management of CFSL, its diversified portfolio and comfortable capital adequacy with commitment from the parent company for capital infusion. The rating remains constrained by the small size of operation along with low seasoning of its portfolio and moderate profitability. Continued parent support, scalability of business, profitability, asset quality, liquidity and capitalization levels are the key rating sensitivities.

Detailed description of the key rating drivers**Key Rating Strengths*****Established presence of the group in the financial services segment***

Centrum Financial Services Limited (CFSL) is the 100% subsidiary of Centrum Capital Limited (CCL). The Centrum group has presence across various segments including investment banking, wealth management, broking and forex business. With the appointment of Mr. Jaspal Bindra as the Executive Chairman CCL, the group is planning to focus on the lending business which is complementary to the existing established non-fund business. The group has set-up a home finance company, Centrum Housing Financial Limited (CHFL), to focus on affordable housing loans; a NBFC, CFSL, offering loans to small and medium enterprises and Centrum MicroCredit Private Limited offering loans to un-served and under-served borrowers operating small businesses in semi-urban areas.

Experienced Management

The centrum group is being led by Mr. Jaspal Bindra former Asia Pacific CEO at Standard Chartered Bank in the role of Executive Chairman of Centrum group.

Mr. Ranjan Ghosh is the MD of CFSL since 2016. He is the former MD and Global Head of Banks, Financial Institutions Group for Standard Chartered Bank. Mr. Bharat Advani is the CFO of CFSL. He has 20+ years in the Finance Industry, and Former CFO of Reliance Capital, Essel Finance Group and Wall Street Finance Limited. Mr. Saurabh Srivastava is the Head – Credit Risk. He has 15+ years of Experience in the Banking sector across various functional roles with MNCs and Leading NBFCs like HSBC and Aditya Birla Finance. Apart from this each of the business segments are headed by experienced people in the relevant segments.

Diversified presence across the segments; however, borrower concentration exists

CFSL's portfolio is fairly diversified. Post-acquisition of L&T Finance's supply chain business as on December 31, 2018, the portfolio comprises of Supply Chain (55%), Commercial Finance (30%), Loans to Financial Intermediaries (6%), Real Estate (7%), Loan against Shares (LAS) (2%). The portfolio is also diversified across various industries.

The company has plans to grow its portfolio primarily through relationship based model by its branches.

Comfortable capital adequacy along with promoter's commitment for equity infusion

As on March 31, 2018, the tangible net worth of CFSL increased from Rs.110.51 crore in FY17 to Rs.168.15 crore. In FY18, Total Capital Adequacy Ratio (CAR) stood at 37.35% with Tier I CAR at 37.04%. The overall gearing stood at 2.04 times as on March 31, 2018 as compared to 2.70 times as on March 31, 2017. The gearing reduced on the back of capital infusion of around Rs.60 crore in FY18. Further, the promoters have given commitment to infuse funds aggregating to Rs.450 crore in CFSL over the next two years (~Rs. 150 crore in FY19 and ~Rs. 300 crore in FY20). The parent company has ~Rs.1000 crore of availability of funds on account of the stake sale in Centrum Direct Ltd. As part of the said infusion in FY19, Rs. 50 crore of CCD (Compulsory Convertible Debenture) was issued to the parent company out of which Rs.35 crore was converted to equity as on December 30, 2018 and Rs.90 crore of unsecured loan provided by CCL in September 30,2018 was converted to equity as on November 30,2018. As on December 31,2018, the tangible net worth stood at Rs. 277 crore and the overall gearing stood at 3.04 times.

Comfortable liquidity position

The liquidity position of the company stands comfortable with positive cumulative mismatches in all time brackets as on December 31, 2018. The company has Cash and Bank balance (114 crore) and investments (55.4 crore) to the tune of Rs. 91 crore as on December 31, 2018.

Key rating weakness

Moderate size and low seasoning of the portfolio

Due to initial years of operations, the size of business is moderate. The seasoning of portfolio is limited. As a result, its asset quality performance through different economic cycles and geographies is yet to be established. The loans outstanding as on March 31, 2018 was Rs.375.67 crore and grew to Rs.1245 crore as on

December 31, 2018. Even though the seasoning of the portfolio is low, CFSL's portfolio is well-collateralized with generally 2x cover in real estate and 1.2x cover in the commercial finance segment.

Moderate Profitability

The company in FY18 earned a Profit after Tax (PAT) of Rs.0.39 crore on a total income of Rs.70.46 crore as compared to a PAT of Rs.5.48 crore on a total income of Rs.38.60 crore in FY17. Net Interest Margin (NIM) stood at -0.04% (PY: 7.14%) due to legacy of high cost borrowings, which is on a reducing mode with the entire issuance maturing by May 2020. Return on Total Assets (ROTA) stood at 0.08% (PY: 1.68%). The reduction in ROTA is due to rise in interest expenses from Rs.12.45 crore in FY17 to Rs.45.64 crore in FY18, increase in provisions from Rs.0.29 crore to Rs.3.28 crore and marginal increase in operating expenses from Rs.17.36 crore to Rs.18.73 crore.

Prospects

Due to subdued economic environment, last few years have been challenging period for the NBFCs with moderation in growth and rising delinquencies resulting in higher provisioning thereby impacting profitability. However, comfortable capitalization levels and liquidity management continue to provide comfort to the credit profile of NBFCs in spite of impact on profitability. Also with the improvement in economic environment, asset quality pressures should ease which will partially offset the impact of migration towards 90 day NPA recognition norm.

Analytical approach: CFSL has been analyzed on a standalone basis; however, the managerial, operational and financial support from the promoters has also been considered.

About CARE Ratings:

CARE Ratings commenced operations in April 1993 and over two decades, it has established itself as one of the leading credit rating agencies in India. CARE is registered with the Securities and Exchange Board of India (SEBI) and also recognized as an External Credit Assessment Institution (ECAI) by the Reserve Bank of India (RBI). CARE Ratings is proud of its rightful place in the Indian capital market built around investor confidence. CARE Ratings provides the entire spectrum of credit rating that helps the corporates to raise capital for their various requirements and assists the investors to form an informed investment decision based on the credit risk and their own risk-return expectations. Our rating and grading service offerings leverage our domain and analytical expertise backed by the methodologies congruent with the international best practices.

Disclaimer

CARE's ratings are opinions on credit quality and are not recommendations to sanction, renew, disburse or recall the concerned bank facilities or to buy, sell or hold any security. CARE has based its ratings/outlooks on information obtained from sources believed by it to be accurate and reliable. CARE does not, however, guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions or for the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE have paid a credit rating fee, based on the amount and type of bank facilities/instruments.

In case of partnership/proprietary concerns, the rating /outlook assigned by CARE is based on the capital deployed by the partners/proprietor and the financial strength of the firm at present. The rating/outlook may undergo change in case of withdrawal of capital or the unsecured loans brought in by the partners/proprietor in addition to the financial performance and other relevant factors.

CENTRUM

CERTIFIED TRUE COPY OF THE EXPLANATORY STATEMENT TO THE RESOLUTION PASSED AT THE ANNUAL GENERAL MEETING OF CENTRUM FINANCIAL SERVICES LIMITED HELD ON FRIDAY, AUGUST 10, 2018 AT 10.00 AM AT CENTRUM HOUSE, C.S.T ROAD, VIDYANAGARI MARG, KALINA, SANTACRUZ (EAST), MUMBAI – 400098.

Item no 1 & 2

Keeping in view the Company's existing and future financial requirements to support its business operations, the Company needs additional funds. For this purpose, the Company is desirous of raising finance from various Banks and/or Financial Institutions and/ or any other lending institutions and/or Bodies Corporate and/or such other persons/ individuals as may be considered fit, which, together with the moneys already borrowed by the Company (apart from temporary loans obtained from the Company's bankers in ordinary course of business) may exceed the aggregate of the paid-up capital and the free reserves of the Company. Hence it is proposed to increase the maximum borrowing limits up to Rs. 2,000 Crores (Rupees Two Thousand Crores only).

Pursuant to Section 180(1)(c) of the Companies Act, 2013, the Board of Directors cannot borrow more than the aggregate amount of the paid-up capital of the Company and its free reserves at any one time except with the consent of the members of the Company in a general meeting.

In order to facilitate securing the borrowing made by the Company, it would be necessary to create charge on the assets or whole or part of the undertaking of the Company. Section 180(1)(a) of the Companies Act, 2013 provides for the power to sell, lease or otherwise dispose of the whole or substantially the whole of the undertaking of the Company subject to the approval of members in the General Meeting by way of a special resolution.

Accordingly, the Resolution Nos. 1 & 2 are proposed to obtain necessary consent of the Company in term of the provision of Sections 180(1) (c) and 180(1)(a) of the Companies Act, 2013.

In view of the above, the Board of Directors recommends passing of resolutions under Item nos. 1 and 2 as Special Resolutions

None of the Directors and Key Managerial Personnel of the Company or their respective relatives is concerned or interested in the passing of the Resolution.
